MAKING LEISURELY ADVANCE

Spearhead Of Hangchow

Shanghai, Apr. 29. — The Chinese Communists closest to Shanghai, just above Quinsan—also known as Kunshan—continued to take a leisurely course today waiting for the southern thrusters to reach a more favourable position against Hangchow.

Qualified observers believed that the final push for Shanghai will be timetabled with the progress against Hangchow.

The Garrison Headquarters announced this morning that Wooshin, 40 miles north of Hangehow, has fallen. It said the Communists also reached Wukang, 25 miles north but slightly west of Hangchow. A third Red detachment was at Shaofeng, 40 miles northwest.

Communications between Hangchow and Wukang were cut yesterday afternoon, indicating that it was already in Red hands. The exact situation around Shaofeng was not clear.

As far as could be learned detachments who pushed down struck across the Yangtse widely through military news control, from Nanking on the north and separated areas. The Commuthe Communists now operating Wuhu on the west. If con- hists at Shanfeng were identified in the Wooshin-Wukong-Shao- firmed, it would mean the first as from the spearheads that feng area linked up units of contact between columns which bridged the Yangtze at Wuhu

Big Four Talks On Berlin Blockade Expected Soon

Lake Success, Apr. 28. — A top-ranking Western diplomat today forecast that Big Four talks will soon be held in New York to make final arrangements to lift the Berlin blockade and arrange a meeting on Germany of the Big Four Foreign Ministers.

The source said it could be expected that representatives of the United States, Britain, France and Russia would confer within a week to set the dates for lifting the blockade and the Council meeting and also arrange technical details of both moves.

DECISION

London, Apr. 28.-Mr Herbert Morrison, the Deputy Prime Minister, today described to Parliament as "historic" the Commonwealth agreement, which keeps the future Republican India within the Commonwealth as a full and equal partner.

Enhanced

Mr Winston Churchill, the leader of the Opposition, said he had no doubt whateverthat nearly everyone wanted India to stay in the Commonwealth, a view which was received with cheers. But there were many questions unanswered and there were possible consequences, "some of them potentially adverse," which could not yet be measured.

Amid cheers, Mr Churchill declared: "This. I say to all my friends: it is the duty of all to try our best to make this new expression of unity of our worldwide association of States and nations a practical and lasting success."

The House of Commons had of the monarchy seems to be carlier heard Mr Morrison read enhanced by the way in which the Commonwealth leaders' the King is acknowledged by the declaration. EDITORIAL

Not A Negative Veto

THE notice of motion which Mr Landale, on behalf of the Unofficial members of Legislative Council introduced on Wednesday regarding constitutional reform has one immediate merit: It brings to a proper level a controversial issue about which for so long there has been much dithering and argument, hitherto lacking official recognition. In very general terms the Unofficials have now become sponsors of a variation of the Sir Mark Young plan for constitutional reform, which has long been advocated by the more articulate sections of the community. In brief it is the abandonment of the popularly elected municipal council for a revised legislature. But it also cuts across the Young scheme in another way: under Sir Mark's proposals, creation of a municipal council automatically brought into effect a change in the set-up of the legislative council, whereunder the official majority would have been wiped out, leaving the Governor with the power of veto. Mr Landale's tentative suggestion (and he himself puts it no higher than that) is that there shall be an Unofficial majority, with the Governor enjoying two votes (if it should be necessary to exercise them) and also the usual "reserve powers." Vaguely it is indicated that the Unofficial members shall be partly elected and partly nominated. More specifically it is suggested that they should total 11 as against nine Officials (including the Governor.) One point instantly arrests the attention: what rights as a legislature. do the Council surrender in conceding to the Governor "reserve powers? Reserve powers do not imply a negative velo. On the contrary they are available essentially for the enactment of legislation regarded as being expedient and

aspects of the proposed constitutional reform which will call for study and Buggestions.

in the interests of the public which has failed to pass through Legislative Council. This is clearly laid down in the Singapore Orders in Council and it is reasonable to expect that if constitutional reform in Hongkong on the lines suggested by Mr. Landale is eventually approved, a similar clause will be written into our Orders in Council. And, as in Singapore, it is assumed that the reserve powers clause will apply especially to issues such as the responsibility of the Colony as a component part of the British Empire, including foreign relations, and relations with other parts of the Commonwealth; as well as to questions affecting defence, and all matters relating to the creation or abolition of any public office and to the appointment, salary or other conditions of service of any public officers, Begause the Governor has "ultra powers" designated to him it really matters little whether the Unofficials seriously outweigh the Officials in voting capacity, and in this respect it is pertinent to suggest that perhaps a simultaneous reform could be made in the Official representation on the Council. The Governor, Colonial Secretary, Attorney General, Financial Secretary and Secretary for Chinese Affairs are "musts," but it may be that the GOC (as in Singapore) could surrender his seat to another departmental head (say the Director of Education), while there may be good grounds for bringing on to the Council the Commissioner of Police or the Director of Marine, with, of course, the DPW and DMS making up the Official representation. There are several other

Australia 1949

TIWENTY - FOUR - YEAR -I OLD Beryl James, "Miss Australia of 1949," is a greeneyed tawny blonds weighing 118 pounds. She measures 34 inches round the bust, has a 24-inch waist and 34-inch hips, and is 5 feet 7 inches tall. A world tour and a "newest look" wardrobe went with the title. The contest raised more than £50,000 for charity.

Why not try artificial flowers? By ELEANOR ROSS

IF you like the colour and I beauty of an interesting floral arrangement, around the house, you don't have to spend a fortune on flowers. Of course it is wonderful to have a standing order at the florist or to have an ever-blooming flower garden.

be lovely. Some florists, in which we breathe. fact, one of the smartest on New York's Park Avenue specialises in these muterials and she says that some of her best customers go in for these bouquets and have become expert in attractive arrangements.

There are cotton pods, mintature cat tails, globe teaset or lotus pods, bead spray and soap berries, money plant, sea grapes, coxcomb or artichoke pods with which to work. Combined with such foliage is broad-leaf evergreens, varyous dried leaves, grasses or grams, you can evolve some fanciful ideas, and stage them in an interesting and fashion, too.

In Shadow Box

Consider an interesting little arrangement placed in a shadow box hung on the wall and illuminated to east fascinating shadows over the composition. Another idea is, create a

stylised arrangement, and spot it with a beautiful little object. This might be a delicate Oriental figurine and the whole thing set on a colourful plate on a woven fibre mat. It should lend interest to any room.

Tony florists also offer moss, putty or a new plastic material that can be cut to size and shape, for use as a permanent

World-Famous Florist

Another florist goes in for the most exquisite imitations of flowers we have ever seen, and this, despite the fact that she is a world-famous florist. Pin'n rhododendron or two to real rhododendron leaves, or a delicate camellia cluster to real camella leaves and there you have something pretty special.

Another nice idea is to work out a low arrangement of ferns an aquarium with those huge hunks of green glass. If you do like flowers, real flowers about the living room, no need to go in for lavish displays. Have several philodendronplanted containers, beautiful bowls or square glass pieces and hide in them a pin-point flower holder. The flowers centered in green growing things will look loveller than ever.

Home Hint

If, when making starch, you use soapy water as the foundation, you will have no further trouble with the Iron sticking to the article you iron. Allow one tablespoonful of sonp jelly to each quart of water, adding the desired mamount of starch, depending upon the garments to be starched.

Large-Scale Anti-TB accinations For Britain

London, Apr. 28 .-- A national scheme for vaccinating Britons against tuberculosis will start soon, the Ministry of Health has announced.

The vaccine, which has been developed during the past 20 years, will be administered by teams of experts to volunteer patients. It is named BCG (baccillus calmette-guerin) after its inventors, and has been widely used in Scandinavian countries for several years. Declines in Scandinavian tuberculosis figures have been recorded since it has been in The British National Health Service emphasised, however, that it is not a cure

tive medicine.

to the disease, which takes more than 20,000 lives a year in England and Wales and over 3,000 more in Scotland, will be asked to volunteer to take the vaccine. A spokesman for the Ministry of Health said there has been a continuous controversy in medical circles as to whether BCG is any good. But it was decided by the Ministry that it would not do any harm to try

BOARDS OF EXPERTS

The programme in Britain is expected to start some time in the middle of this year. The National Health Service has set up boards of experts to supervise the vaccinations. Nurses and medical students in hospitals throughout the country may be asked to take the vaccine.

The programme will start at first on a limited scale, and then, as more expert cadres are trained, it will spread out. Britain's tuberculosis death rate has declined slightly since the end 'of the war from its peak of 25,000 in 1943. The incidence of new cases, however, has gone up considerably. The number of cases notified to the Ministry in 1947—the last available figures at present-were 51,000, compared with 1939 figure of 46,000 -Associated Press.

CHINESE REDS TAKE PAOSHAN

Rangoon, Apr. 28.—The Burma Army Radio reported today that 2,000 Chinese Communists had captured Paoshan, about 160 kitometres from the Burmese border, cutting the famous Burma Road to China. The broadcast said that Wanting, an important Chinese customs outpost on the Burma border, had been isolated from Paoshan.-Reuter.

THE PANORAMA OF FOOTBALL

From Shrove Tuesday To Wembley

BY J. W. TAYLOR

Football Association Cup interest among the millions of Soccer fans mounts to fever pitch as the competition gears towards the Wembley climax, contrasting strangely with the days when Edward III banned the game because the citizens preferred to play football rather than practice archery at a time when the military strength of England depended a great deal upon the bowmen. Now it is a part of the Army's physical training. And nearly 75 years ago, a Royal Engineers team won the F.A. Cup!

The game has been played in various forms in England for hundreds of years and is our oldest national sport. One of the first places mentioned in connection with football is Chester. Here, centuries ago, the people played football on the Roodee on a Shrove Tuesday. Chroniclers of the time record that the first "ball" used was the head of a Dane slain in battle! Shrove Tuesday was, in fact, regarded as "football" for centuries. The tradition remained active up to, and perhaps beyond, the Twelfth Century. In Inverness the Shrove Tuesday match was played between the married women and the spinsters. The latter are said to have lost every time. In those days there was no limit to the number of players on either side.

TENNIS BEHIND THE IRON CURTAIN

Asboth Undefeated In Russian Tour

By ENDRE MARTON Budapest, Apr. 28 .- Hungary's Davis Cup team

will meet the Belgians in the second round in Budapest on May 13-15. The best players of this country have been training in the Soviet Union for several weeks.

The Hungarian Association of Lawn Tennis will appoint the members of the team only after the tourists return.

The invitation of Hungarian players to the Soviet Union is considered of great importance here. Despite obvious excellent political relations between the two countries, it is the first time that Hungarian sportsmen have been invited to Moscow.

The following have been

Preserve Entries Into Dummy's Hand

BY WILLIAM E. McKENNEY

NE of the difficult problems for all bridge writers is to get down to earth for their readers who are just beginning to take up contract. As I said in a recent article, the late Louis H. Watson in my opinion was one of the greatest card players.

Back in the days when people were changing over from auction to contract, Louis used to say, "Teach them the simple plays. The tough ones will take care of

themselves." Today's hand, for example, would present no problem to the

expert, but it is the type of hand which the beginner should study. When declarer wins the opening lead of the deuce of hearts with the king, he might be tempted to cash his four high spades. But then he would lose the contract because he would have no entry into dummy.

The correct procedure is to lead the ten of clubs. East should refuse to win this trick. Now declarer should lead the nine of clubs, and again East will refuse. Now the six of clubs is led and

overtaken in dummy with the jack. East is forced to win this trick, and regardless of what he returns, declarer can win it, cash the ace and king of spades and enter dummy by playing a spade. This allows him to cash two good club tricks.

BUSINESSMAN

Difficult Policy Decision Faces Blocked US Government In Britain

WHETHER TO WITH COMMUNISTS

Washington, Apr. 28.—In seeking to decide its attitude toward the victorious Chinese Communists, the United States government today faces one of its most difficult political and economic questions of policy.

With the Communists in impending control of Shanghai the problem of future trade and business relations and to what extent relations shall be maintained with the new regime becomes urgent.

One thing appears reasonably certain here: whatever decision is made by the United States Administration there will be those who feel it is a wrong United States expert opinion

has long been split between interventionist school, which holds that a large part of China can still be salvaged for democracy, if America is willing to expend the mone; and material, and an equally determined group headed by the Secretary of State, Mr Dean Acheson, which believes further attempts to aid the Kuomingtang government would be useless, but who still insist it is only government with by the Soviet Union. which they are at present to deal.-United Press.

Fishing Rights In Japan Sea

Tokye. Apr. Minister Shireru Yoshida fold a Lower House committee today that Japan wishes to get permission to fish in the Japan sea, but that no talks have yet been held for conclusion of an agreement to that end.

. He said the Japanese government hoped to negotiate on the issue if and when approached However, Yoshida qualified

this remark by reminding committee members that 'all such negotiations must be made through General MacArthur's Headquarters, as no direct talks are permitted. The committee was the one

Hyde Park Scene On Easter Sunday Morning

There never was an Easter Parade like London's 1949 revival . . Three hundred thousand people were in it . . . At 12.30 there was a complete jam of sightseers, cars, horses in half a mile of Hyde Park's carriageway. Hundreds and to leave their cars. Celebrity. hunting was fierce. -London Express Service.

Freedom Of The Press Conventions

UN Approves U.S. Resolution

Lake Success, Apr. 28 .-The United States formula for extension of the projected press freedom conventions to non-self governing areas was approved today over Soviet bloc objections by the Social Committee of the United Nations General Assembly,

Under the America formula states would "to take as soon as possible necessary steps" extend the conventions to its where subject, necessary for constitutional horrors of war. "If another reasons, to the consent of country set up zones, we would

the six Sovlet bloc states against l with three abstentions. The to the treaty," Argentine delegate was not present for the vote.

a signatory.

the convention to territories of it after war has broken out. tish delegate, Mr Ernest Davles our obligations. And we cannot Naples this morning. objected that if application to sign it if we have no intention colonles was automatic Britain of setting up this kind of zone." governments.

BRITISH ASSURANCE

Mr Davies assured the Egyption delegate his government was eager to make sure the convention was applied to the colonies.

Mr.Jacques Kayser, of France, supported the United States amendment on the grounds it covered the essential principles of the question, namely constitu-·tional issues of equality of rights and principles of non commitment without prior consultation. This view was shared by Belgium, Sweden and Lebanon.

Mr Georg Andren, of Sweden, however, said he would favour inclusion of the Indian plan to increase from 30 days to six months the time that a convention would be extended to territories following notification by the states to the United Nations Secretary-General.

Hamed Sultan, of Egypt, explained to the committee that his amendment' to Article 15 would extend the scope of the convention to non self governing territories and territories

under trusteeship. · Mr Henryk Altman, of Po-1nnd, said the Polish umendment was prompted by a fundamental i concept that freedom of information cannot be reserved to metropolitan powers and that a convention should directly confer the same power to non-self governing territories even if the states responsible for the foreign relations of the territories had mot ratified the convention.-United Press.

Security Zones Against Atomic Bombs Suggested

Geneva, Apr. 28.—Russia today declared herself in favour of all nations setting up "security zones" to shelter civilians who cannot fight in any future atomic war. M. Platon Morosov, the Soviet delegate to the 59-nations Red Cross Conference, meeting here to revise the "rules of warfare," said: We can consider that these zones are one step forward, that they are indicative of some progress."

M. Morosov supported the inclusion in a proposed treaty to protect civilians in wartime of an article reading: "In time of peace, the contracting parties and, in case of conflict, the parties thereto, shall endeavour to set up in their own territory, and, if the need arises, in occupied areas, hospital and safety zones and localities so organised as to protect from the effects of war the wounded and sick, children under 15, expectant mothers, mothers of children under seven, persons over 65 and the personnel entrusted with the organisation and administration of such zones and localities, and with the care of persons assembled therein."

The Canadian delegate, Mr | also provides that they shall not Max Wershof, suggested an be located in areas which might amendment to the article become important to the conwhich would not make the set- i duct of a war.-Reuter. ting up of security zones obliga-
